The Deiln Dregoman.

FRIDAY MORNING, FEB, 25, 1881.

A three per cent, build he a new thing in America. It wast therefore be regarded as an experiment. An effort is not being made to fund a large part of the national debt in lands bearing this low rate of interest. Opinious differ as to whether the effort will be successful or not. A bond bearing to low a rate of interest should have a long lime torum, so that the permanence of the investment might be an inducement. But the bill make the bonds re-dremable at the pleasure of the United States after five years and payable twenty years from date of issue; and it forbids the secretary of the treasury to receive subscriptions for the than par. These bonds, to the amount of \$490,000,000, are to be offered of the denomination of \$50, or some multiple of that um. A further loan is to be offered in the orm of treasury notes to for amount of \$300. 000,000, bearing interest likewise at the rate of three per cont. per annum, redeemable in one year at the option of the United States, and

bill. That section provides that after the later ity may not always lead to reform. On the the only bonds receivable as exemity it may and always lead to reform. On the the only bonds receivable as security for its ating profitable transactions.

Libriance the Margine and the Property of the theory of the transactions. safe keeping and prompt payment of publicnoncy deposited with said banks. And to
compel the banks to make or accept the substitution, it is provided that ne itenda upon
which the interest has ceased shall be accepted
of continued on deposit for security of bank
circulation, and that within thirty days after
interest has ceased thereon the bank depositing
them shall be liable to research the continued on the with authority to wind up the bank's affairs.

It will be seen that theact compels the hanks to accept three per cent. bonds in lieu of the five and six per cents ther now have on deposits to seeine their circulation. To this comparation of \$50,000 offscholders, many, perhaps most to \$10,000 offscholders, many, perhaps most to \$10,00 o accept three per cent. bonds in lieu of the

PROP. BIND ANSWERED.

Notice of Frot. Hind's charges of fraud on the part of Cana lian officials in the Haliffax Sahing award affair, has at last body taken by the Dominion purliament. On the 9th inst. a member moved that correspondence in referance to the temporal of Califfornia, and the legislature and press are discussing it at great legislature. member moved that correspondence in reference to the "alleged inactrate statistics submitted to the "falleged inactrate statistics submitted to the "falleged award commission." be laid before parliament. In reply Hon. John O. Pope, minister of maripe and Esperies, said that there was no objection to bringing down hat there was no objection to bringing down hat correspondence. This correspondence has correspondence are the desire out of the city. To turn that the charges made by Prefessor Hind.

States, but the charges made by Prefessor Hind. States, but the charges made by Professor Hind work so colossal that the legislature shrinks correspondence convicted him of acting from improper motives rather than a desire that any errors should be corrected. In preparing statistics of this kind some inaccurptics might have occurred, but no one would for a moment the stati requires agriculture to be saved believe that the late minister of subsciences. The mines will be worked out in time, but agbelieve that the late minister of fisheries and his associates had been fully of the gross charges made by Professor Hind. Hind himself admitted that the effect of those alterations of figures was against the interest of Canada, and consequently this country/could have had better leave his history of the war of the results of the making them. The mogotiations of figures was against the interests of Lanada, and consequently this country could have had no object in making them. The negotiations had taken place while his prefecusion was in office, and he would not refer to the matter fur-ther than to say that Professor Rind showed ther than to say the real post actions and action of present and mostites among southern leaders. Sir A. J. Smith, ex-minister of marine and

charges made by Professor Hind not only Against himself, but against almost every on connected with the commission. The The purport of the charge was that the statistica had been cooked a charge which, I true, would reflect ignorably and disgrace on the country; but it was not trus. He could not understand what Professor flind's cheet was, unless to make trouble between the are contries. He continued his statement to the proportions of a speech, and before concluding gave it the character of an argument. His chief points were that Hird was a mischled maker, a statement which he fortified with personal reminiscences, and that the American and Mesers. Dans and Prescriti-had remained, ing the presert discussion, which he assumed was eviden to of their condemnation of Hind's statements. The charges he said were whally unworthy ut select; but if the Canadian government thought that the United States government believed these charges, they should themselves propose that an inquiry be held. He was quite prepared to meet such an inquiry, and believed that he also spoke the sentiments of the other gen lemen connected with the preparation of the Canadian case. He wanted to say in his place in parliar Hind to be baseless and without four dation, and that the case on both sides had been our duoted in a manner worthy of the dignity and. honor of the two great countries commented

Notifie of the gentlemen who thus indignantly talk of Prof Hind's charges is men tioned in them in any dishonerable connection and it has not been presumed that they per-sonally know anything of the alleged trands. Their dealsh has no force other than that it is an expression of spin ion from the intelligent with reference to the matter. But the credit due to this intelligence is weakened by the fact that both are interested in demonstrating an honest policy with part of Canada. The insuggeted by Bir A. J. Bmith is an easy and the onlyway of settl og the question. To gain an idea if the tramspilous growth of

the country of

in reaso in mer trade, but take particular brunches of trade and casming them separately. Of course everyone knows that Chicago deals extensionly in beef, pork and grain. Naturally such a city would also have good de d of butter trade, and when it was telegraphed a few days ugo that there had been discovered an extensive hogus butter factory there, we even began to look askance at our littless away out here in Oyogon, not knowing but the urificle on the table before us might be some of Chi same shift from Chesgo. But the truth is d would take a good many electrorgarine estab-ishments to make any impression on the but-er trade of tracters. Receipts of butter at Th cago during the year 1880, reached the pro-lig ous total of 67,635.852 pounds, and the bipments were 60,056.454 pounds. Three to said our eads of butter per shrum is a gond deal for one city to handle, and in probutter factory doesn't amount to much. When butter factory descan't amount to much. When, the reducts that it requires 300,000 cows and sport than 1,00,0000 acres of land to supply the Chicago butter market, he begins to see that the city on La to Michigan is a good deal of a transfer of the company of t

[lace, provide in ton years. These news are to be a second in denominations of \$10, or some multiple of that sum, the object being to offer in which strongly remind one of similar things ducements to small investors. Subscriptions found and reported by the Oregon legislative ducements to junal investors. Subscriptions fund and reported by the Oregon logislature for either are to be received it all national channels and depositories, and also at such other hands as the socrotary may designate. Proviscion is made for exphange of these bends and notes for any operating bonds of the United Williams County is published, showing a charge of \$200 To for bringing a prisoner from Col-States hearing a higher rate of interest than often or supplementary account for the same four and a half per cent.; but no provision of sortice, lamounting to \$132 85, was condered this act is to apply to redemption or exchange and allowed, runking a total of \$342 55. For any of the bonds is sped to the Pacific rail-y companies.

Support the bonds is sped to the Pacific rail-y companies.

Stollacoum there is a bill of \$301 90. These Some of the national banks are protesting bills seem to no copied from those uncarther gorously against the fifth sect on of the new be the Oregon legislative committee. Public

or to cepartments of Pennsylvanian cities no doubt exceed this number. New York has un-quest outly 50,000 officeholders more, city, state and loca. Local officeholders in the two states equal the entire number of federal officecirculation, and that within thirty days arear interest has caused therein the bank depositing state and loca. Local officeholders in the two state and loca. Local officeholders in the two state and local Local officeholders in the two states and local confirmation of the complete and the states and local controller of the currency as for defeat, including the appearance of the controller of the currency cone vaters in sense of these better in the taxos raised by the other nineteen votors. This would give through the country from 400,000 to 500,000 officeholders, mary, porlkps most, withing or ward presents dependent on them.

contrely and come to ide business under the untimal braiking lay. It is not thought, however, that this chirac will be taken by any large upubor of then. The entire circulation of the dotional banks is about \$250,000,000. Work it all called in it, but would make the monogeneous would make the monogeneous would be the company whall have a capital of \$1.00,000, and to wirk four or five wires between New York and Chicago, by way of Buffalo, Theide and Olicago, by way of Buffalo, Theide and Olicago, by way of Buffalo, Theide and of the worst consequences would be the of New York is \$500,000. The remaining \$300,000 are the worst consequences would be the of New York is \$500,000. The remaining \$300,000 are the worst owned in the monogeneous would immediately call for more cities. No person can subscribe more than greenbacks to supply the place of the bank \$500 of the stock, and only men onegoed in necessary and perhaps making it impossible to concept and perhaps making it impossible to maintain its interchangesbility with gold. The plan for a new tolograph line between Now York and Chicago, as sgainst fifty conta-the present Western Union price. Under no
